ANNIE MIN

Phone Number: (213) 364-3642 | **E-mail**: anniemin2005@gmail.com

EDUCATION:

Carnegie Mellon University, Pittsburgh, Pennsylvania — Expected May 2027

Major in Information Systems and Concentration in Data Analytics

Relevant Coursework: Fundamentals of Programming and Computer Science, Probability and Statistical Inference, Designing Human Centered Software, Database Design and Development, Application Design and Development, Behavorial Economics Research Workshop, Statistical Graphics and Visualization

EXPERIENCE:

Travel Landing USA - Travel Services Assistant — June 2024 - August 2024

Los Angeles, California

- Coordinated flight and tour bookings for clients, managing ticketing and reservations for clients
- Maintained organized records of invoices and tickets to support accurate billing and efficient recordkeeping
- Communicated with clients via phone, email, and in person to resolve travel needs and ensure a seamless booking experience

Mango Mango Dessert - Part Time Server — May 2025 - Present

Pittsburgh, Pennsylvania

- Delivered attentive, high-volume customer service in a fast-paced dessert restaurant, taking orders and seating up to 70 guests per shift
- Maintained fully stocked service stations by monitoring inventory and restocking supplies to ensure uninterrupted service

PROJECTS:

Pointing (Design Change Challenge) — October 2025

Carnegie Mellon University, Pittsburgh

- Collaborated with a team of 4 to redesign and refactor an existing codebase
- Redesigned a 4x4 grid-based target-selection interface, where users repeatedly clicked a highlighted box across 16 trials, using time between clicks as the core efficiency metric
- Generated and evaluated multiple design concepts aimed at reducing user completion time and increased efficiency

Tiny Typing (Design Change Challenge) — November 2025

Carnegie Mellon University, Pittsburgh

- Redesigned a miniaturized keyboard interface sized to fit an Apple Watch–scale device to maximize typing speed and accuracy in a constrained input space
- Implemented a prototype based on the team's top concept and conducted user testing to measure its impact on typing speed and error rate

Classic Creamery (Application Design and Development) — February 2026 - April 2026

Carnegie Mellon University, Pittsburgh

- Analyzed a narrative use case to identify system actors and define core application requirements
- Designed and implemented models, views, and controllers to structure the application's database
- Developed test cases and test data that identified and resolved errors, improving application reliability

Student Mental Health Dataset Evaluation — March 2026 - April 2026

Carnegie Mellon University, Pittsburgh

- Visualized and analyzed variables in RStudio to uncover trends in student mental health
- Summarized and presented key findings and takeaways in a slideshow

TECHNICAL SKILLS:

Languages	English, Korean
Computing Languages	Java, MongoDB, PostgreSQL, Python, R, Ruby on Rails, TypeScript
Applications	Amadeus, Microsoft Office Suite, Photoshop, Saber, VS Code, WSL
